PROFILE SUMMARY

Front-end developer with 1 + year of experience. I am also in charge of UI design and I enjoy having responsibilities for both creating UI that I envision and giving them shape by coding. I am passionate for both personal growth and software development and have the proven ability to work cross-functionally. Besides that, I also have experience working internationally, so I can easily adjust myself to new environments and love new challenges.

WORK EXPERIENCE

Front-end developer   Mar 2021 - May 2022

TerraSky Co., Ltd. , Tokyo

- Developed a clock-in clock-out application that manages employees' attendance and holidays using Vue.js, Vuetify, Javascript, HTML, and CSS.
- Collaborated with 10 other team members to brainstorm, design, and deploy more than 15 new UI pages from scratch.
- Built 100% reusable components for the future use.
- Experience in weekly agile/scrum methodology.
